THE PARTICIPANTS

Who all should register for the event?

Students
Women studying in STEM fields who are eager to explore AI and enhance their academic journey.

Early Career Professionals
Those looking to make a headstart with AI or boost their tech skills for career advancement.

Career Transitioners
Women aiming to transition into AI from other fields, seeking new opportunities and growth.

Experienced Technologists
Women already working in tech, seeking to strengthen their AI expertise and lead innovative projects.

AI Enthusiasts
Women with a keen interest in AI, regardless of their background, who want to be part of a dynamic community and learn from industry leaders.

THE OPPORTUNITIES

Why is SAWiT.AI the Ultimate AI Experience

Imagine a not-so-distant future where the vast pool of women in STEM talent in South Asia are empowered to be influential tech leaders. SAWiT.AI aims to spearhead this change by bringing together the best in Gen AI learning and emerging female tech talent.

Hands-On Gen AI Experience
We'll empower 500,000 women to build innovative applications through practical Gen AI experience.

Showcasing Talent Through Innovation
We offer a premier platform for demonstrating Gen AI expertise through the World's Largest Women-Only Hackathon.

SAWiT.AI

Enriching Participant Profiles
You'll be equipped with valuable Gen.AI skills to enhance your profiles for career advancement

Leading the Gen AI Revolution
SAWiT.AI empowers Indian Women in Tech to lead the Gen AI revolution, driving a global narrative of innovation and inclusivity.

EVENT 1: AGENDA

SAWiT.AI
Learnathon

BEFORE THE EVENT

After registration and profile verification, we'll send you learning material to prep for the event.

01
Introduction to Gen AI and SAWiT.AI

YOU'LL GET...
• A comprehensive overview of generative AI
• Details of the event, including the various sessions

02
GUVI's Python Zero to Hero Course

YOU'LL GET...
• Tutored in Basic to Intermediate Python programming.
• Access to learning materials will be provided via email

DAY OF THE EVENT

Join us in your allotted time-slot to build on the knowledge you gained from the learning material.

03
GUVI's Gen-AI Frameworks Intro with Vertex AI

YOU'LL GET...

04
Forward Learning Path to Hackathon

YOU'LL GET...

- The chance to explore Retrieval-Augmented Generation (RAG)
- Hands-on experience with AI tools.
- An understanding of model training and operation.

- The know-how to use Vertex AI to build and refine applications.
- Activation of AI Inference access (Google Colab + Gemini).
- Hands-on RAG application building experience.

Get a
Co-branded Certificate upon Completion!

EVENT 2: AGENDA

SAWiT.AI
Hackathon

SAWiT.AI Hackathon will be hosted on GUVI's hackathon platform. Participating teams can identify issues with accompanying data sets across a range of domains and complexity (Novice to Master),

EVENT 3: AGENDA

SAWiT.AI
Celebration

A Gen AI Festival in October 2024 which awards the winners of the Gen AI challenge, acknowledges key sponsors and partners, and recognizes the institutions that went above and beyond in their support.

TESTIMONIALS
What are People Saying?

Anjali R.
Data Analyst

"SAWiT AI Powered GUVI is such a great opportunity for growth for women, especially because tech is a male-dominated industry. The Python course and Gen AI frameworks are just what I need to advance my skills. Really looking forward to the event!"

Nisha K.
Product Manager

"As one of the only 2 women in my tech team, I've always wanted a community that understands my journey. SAWiT.AI Powered GUVI is perfect for that. It's a chance to improve my skills and connect with women making strides in tech. The free access to Collab Pro and Gemini Pro Token is a fantastic perk. Thank you!"

Ritu S.
UX Designer

"SAWiT.AI Powered GUVI offers an amazing opportunity to learn from top women in tech and close the gender gap. The hands-on Gen AI experience is just what I need to move forward in my career. That is why I registered the moment I heard about it, and I can't wait to be a part of it!"

Meera J.
Systems Architect

"It is quite obvious now that AI is here to stay and will play a massive role in our careers. SAWiT.AI Powered GUVI is such a refreshing event because it's not just about learning AI skills but also catered to women. Seeing how there are barely any women in the tech industry, it will be awesome to connect with leaders, learn from them, and advance my skills at the same time."

Priya M.
Software Engineer

"I work with a mostly male team, and when I heard about SAWiT.AI Powered GUVI being a women-only event, I got very excited. This event is a great chance to get hands-on with Gen AI and boost my career. I am looking forward to engaging with the community and learning new AI skills."
